The Electoral College: What is it and why.....
vs. the National Popular Vote Compact

Who's funding the candidates?

How to follow the money using the pdc - "public disclosure commission"

- > how can the public access it?
- > what information does it include for each candidate currently running for office?
- > who is funding the candidate?
- > who is represented by the organizations giving money to the candidate?

- > how does this affect our democracy?
- > what about the hidden money - the super PACs

Why should we abolish the Electoral College?

- > where does it come from and how does it work?
- > are the framers intentions relevant today?
